Grapes and Apples All That Remain of Domestic Fruits.

An Upward Movement of Eggs and Choice Grades of Butter.

QUIET TRADE IN FLORAL OFFERINGS

OFFICE OF PITTSBURG DISPATCH, FRIDAY, November 8, 1880. The features of interest developed the past week concerning market basket-filling are the advance in tomatoes and eggs, and decline in tropical fruits, particularly

Florida. All else remains at about the same figure as last Saturday. Out-door tomatoes were nipped by biting frosts last week, and their day is nearly at an end. T'ey are still, however, to be found on the stalls at prices nearly double

those which ruled last Saturday. Of domestic fruits, grapes and apples are about all that are left, and for these prices are the same as last Saturday. Another week will probably leave this field to the one line of apples. Tropical fruits are in better de mand, and oranges are to be had at lower rates than a week ago.

Fish, Oysters and Poultry.

At the fish and oyster stalls a quiet week's trade was reported. In some choice grades of fish supply is still inside of demand, but markets are much better stocked with all kinds of fish than at any time this season. Consumers of fish and oysters have evidently not gotten fairi; down to their work.

Pot ry is in better supply and lower, turkey being the exception to this rule. The latter are, so far, scarce in our markets and the Thanksgiving bird bids fair at this date to be more expensive than usual. Countrymen through Pittsburg's balliwick report an un-usual scarcity of turkeys, and our supplies this season must come chiefly from the West. Lovers of game will have little trouble secur-ing everything in this line that is desired.

Eggs Still Scarce. There is a great scarcity of good fresh eggs, and retail prices are higher than last Saturday. A sure article of hen fruit brings 80c per dozen, and is much cheaper at this figure than the best cold storage eggs at 25c per dozen.

In floral lines trade is quiet. Society has done no big things this week to call out floral ext week promises much better in this line. Chrysanthemums are now at their best. Next week Philadelphia is to have its great annual display of chrysanthemums, which for a dozen years past has been the great floral event of the year. Following are the retail prices of market basket materials as furnished by leading

MARKETS BY WIRE.

A Dull, Dragging Day in Wheat, With Frequent Fluctuntions-A Proposed Change in Grading Affects the Market.

CHICAGO-Wheat-There was a rather dull dragging of trade during most of the session, with fluctuations again confined within narrow limits. Influences were both favorable and unfavorable. European markets were dull, but export clearances were heavy. On the other hand, a proposition before the Warehouse Commissioners, looking toward the low-ering of grading, is having some effect in the way of unseitling trade. It is difficult to fore-see, though operations lean to the belief that it would create lower prices. The market here opened dull and easy and later became stronger, and just before the close prices were advanced to outside range, or %c for December and %c for May, closing Mc higher than yesterday.

Corn—The feeling was easier on near months while the distant deliveres were without special change. The market opened a shade better than closing prices of yesterday, but under free offerings of November by shippers sold off \$60, reacted a trifle and ruled steady and closed track. oranges, which begin to come in freely from

Outs—Offerings early were not large until after an advance of \$60\$\frac{1}{2}\$\cap{ca}\$ good many long outs came out, but all were taken and the price well maintained until the close.

Mess pork—The market was semewhat unsettled, early there was some buying of November and prices were advanced 25c, while other deliveries rallied \$67\$\cap{c}\$c. Later prices receded again and the market closed quiet.

Lard—A comparatively light trade was reported. The feeling was firm and prices were well supported. well supported.

ST. PETER'S CHURCH RUMORS CORNERED

There being rumors in the air that negotiations were going on looking to the sale of St. Peter's Episcopal Church property, at the corner of Grant street and Diamond alley, and that Henry A. Weaver & Co. were managing the deat, THE DISPATCH representative called on that firm yesterday evening to learn the facts. Mr. Weaver said: "There have been some capitalists who wanted to see what the property could be bought at. This we endeavored to do, but tound the vestry little inclined to sell, not knowing where they could get another property so conveniently located for public worship. Besides, the church is not in debt, and has no taxes to pay. If St. Peter's changes ownership at all, it will not be for some

It has also been reported that the property of Mr. C. L. Magee, on the corner of Fifth avenue and Grant street, was in the deal. Mr. Veaver staten that this was a valuable piece of ground-none more so-but that it must be asidered entirely distinct from the church roperty, and added: "Mr. Magee has had plans prepared for a large office building, as I have been informed, and will probably erect a fine house on the premises."

Pittsburg is destined to become a city of homes. A good start in this direction has been made. Owners of unimproved land are becoming interested in building, and the financial institutions of the city evince greater liberality than has been their custom in forward-ing the good work. A real estate broker remarked yesterday: "I think the time is not far distant when a man can walk into a Pittsburg bank and cash a mortgage as readily as a check, as is now done in Phlladelphia. This would give building such an impetus as would make the present boom appearinsignificant. We are coming to this very fast,"

"Some Thoughts on Fuel Gas," was the title of a paper read by Mr. John Young, of Allegheny City, at the recent Baltimore meeting of the American Gas Light Association. He concluded by saying: "The rapid progress that has been made during the last few years in reducing the cost of production and distribution of electric lighting, its rapidly growing popularity for street lighting and for stores, hotels, theaters, railway stations and even private residences, point to a not far distant time when illuminating gas companies must look to some other means of utilizing their manufacturing and distributing plant than in the supply of illuminating gas. Would it not be well for gas companies to spend some time and money in investigating into the possibilities of a manufactured fuel gas when applied to domestic heating and cooking on thoroughly economic and scientific principles?"

The latest reported addition to the industries of Jeannette is a steel plant to be established

without precedent in the history of the city, and they have all been sold or rented, a fact which should not be overlooked by capitalists. Pittsburg is growing very rapidly. Houses are occupied as fast as they are built. The demand for them next year, it is thought, will be very good. It should be met. To ignore it placed on record against them.

The following is extracted from an English \$257,823. letter on the iron situation: "There can be no doubt that the revival, which has now for some time been steadily maintained, is passing into that condition of rapid rises and phenomenal demand which can be characterized only by that expressive phrase which, I believe, emanated from your side-'a boom.' Everywhere indications are toward further progress. While they acknowledge the value of the United States demand, British iron and steel masters tinued active, and warrants have fluctuated | are yet not basing their hopes upon this rock which brought about the boom in North of Eogland pig iron and in metal made in other British centers. The boom subsided then directly the demand fell off. To-day, while not undervaluing the immense importance of trans-Atlantic buying, British iron and steel masters are yet pleased to find that the demand is not confined to any one country, but that it is well distributed over most of our foreign markets."

Secretary Windom throws cold water on the report of a bond corner. He says: "I have heard nothing to lead me to believe that there is a syndicate attempting to get control of the bonds. I believe that the registered bonds are pretty well scattered. There are some 40,000 holders of this class. The unregistered bonds, of course, we cannot tell anything about. Some of the former bonds may have been or that bonds are being absorbed by a few peo-ple." He added: "Unless something unforeseen arises, there are no indications to point to a tight money market or an excessive demand for money which cannot be readily spplied."

The activity of the iron trade and the great demand for coke have quickened the inquiry for coal lands wherever they exist. Those in Southern Fayette county promise to come into market soon. The work of securing options has been going on for some weeks past. The proposed extension of the Southwest Railroad banker, has taken 90-day options on 3,000 acres in the vicinity of Masontown, with a frontage of four miles on the Monongabela, at \$50 per acre. J. A. Nicholia, aiso of Uniontown, has 2,000 acres in the same vicinity at the same price. The H. C. Peter acre. into West Virginia and the extension of slack-

Va. the utmost activity prevails in the mining region throughout that and Mercer counties, and more men are employed than ever before, The total production of coal in that basin is about 100,000 tons per month, of which amount Many Important Sales Show Great Activity the Turkey Gap mines get out about 25,000 tons, the remainder being scattered. About 1,000 coke ovens are in operation, and 200 more are building, 100 being erected by the Powhatan Company. These latter will be fired in about a week. One hundred and fifty miners' cottages have been built in the county during the past 60 days, and they are all tenanted by families. About 20 miles of railroad branches have been put down during the year, and the whole region is in a prosperous condition.

Westinghouse Electric The feature of the stock market yeste was a renewal of activity in Westinghouse Electric, which, under the impetus of a good demand, advanced from 45% to 51. The true inwardness of the boom could not be got at, as it was impossible to go behind the brokers, figuratively, but it was said to be due to the formation of a clique, chiefly connected with the company, to take all the stock they can get

the company, to take all the stock they can gue around the present quotation. The property having been stripped of some of its legal com-plications, and pusiness being large and rapidly increasing, is considered a good purchase at anything under 55. But it may go higher. Philadelphia Gas and Central Traction were also on their mettle, and presented a bold front, as if they had never been under a cloud. The former closed, with a sale, at 34%. For the latformer closed, with a sale, at 34½. For the later 32 was bid and 32½ asked. Chizens' at Pittsburg were strong but dull. A SLIGHT SHRINKAGE. Business a Little Slow at the Banks-Clear-

ing House Figures. The exchanges yesterday were the smallest of the week, being \$1,956,034 94. The balances were \$334,748 70. The demand for funds was also light. Rates were steady at 6@7 per cent. No particular reason was known for the decline in business, which is liable to happen any time. People neglect to deposit, or remit-tances fail, or something else occurs to inter-runt their financial operations. The dullness at the banks was not reflected in general trade, which was of the usual volume.

Money on call at New York yesterday was easy, ranging from 3 to 6 per cent; last loan 5, closed offered at 8. Prime mercantile paper, 5468. Sterling exchange quiet and weak at \$4.80% for 60-day bills, and \$4.84% for demand.

there by Eastern capitalists. The location selected is just outside of the town proper, and was selected on account of the proximity of natural gas in the Grapeville belt. It is said that the works when in operation will employ at least 700 men, and will be comprised of a steel making and finishing department. In the latter fine tools and machinery of various patterns will be produced.

The importance of building small and medium-sized houses seems to be more generally appreciated than ever before. The number of these classes of buildings erected this year is without assay. Closing Bond Quotations.

OIL STILL GOING UP.

An Excited Market and Highest Price for Nearly Five Years.

Petroleum made a jump to \$1 12% yesterday -the highest price since January, 1884. The opening was \$1 10%, highest \$1 12%, lowest \$1 09% closing \$1 11%. Although the market was strong and excited most of the day, trading was so light as to attract very little atten-

The news of the day was nearly all bullish. The European markets were reported higher, consumption on the increase and stocks rapidly disappearing. There was also a feeling that prices are up to stay. This gives confience to the trade, and is beginning to impress outsiders. The only element of weakness was a report that the Standard was about to make a move. It is said to have large foreign orders and to want cheaper oil.

The market is rather ticklish, One side is afraid to sell short, and the other in doubt as to the advisability of buying. The consequence is that prices bob up and down on very light trading. The news of the day was nearly all bullish.

rading.
Advices from Washington, Pa., were to the following effect: Bellevue well No 2 is doing about 12 barrels per hour. This well is getting its oil from the 50-foot sand, which is at all events considered rather treacherous. It does not improve the territory as much as if it were getting its oil from another sand. McCown No. 4 is good for about 20 barrels a day, and the Johnston well will do about 30 barrels. Mur-phy No. 6 is reported as being a good producer.

BEAR MANIFULATION

Makes an Impression Upon Railroad Shares -Stories Which Depress Prices-Sugar Trust Scores a Handsome Advance-Bonds

Fentureless. NEW YORK, November 8 .- The stock market to-day was irregular, but generally weak, though there was little impression made upon prices outside of a few stocks which were the objects of special bear manipulation. There was a story from Philadelphia concerning a surplus capital reserved for the Reading Coal and Iron Company, out of which the losses of the present year would be taken, leaving all \$8.00 the railroad earnings to be applied to payment of interest upon the incomes. This, with the splendid support which the stocks received, kept Reading up to and even above the level of last evening's figures, and the attention of the bears was given entirely to the other stocks

the bears was given entirely to the other stocks of that group.

Lackawanna was the greatest sufferer and was closely followed by Jersey Central and Delaware and Hudson. The efforts of the bears were slacked off toward noon, and prices left to themselves railied slowly, with special strength in Atchison and some of the specialties, while Sugar, which has received some support of late, was bought largely by the trading element and scored a handsome advance. Toward the close there were rumors of a report from an expert accountant to be published which would show a deficit for the year in St. Paul instead of a surplus.

stead of a surplus.

The bear pressure was turned upon the Grangers, and St. Paul led another downward movement, which, however, extended to all the others, though Rock Island was the only one others, though Rock Island was the only one upon which any impression was made outside of St. Paul. Among the specialties Hocking Valley and Tennessee Coal were the leading strong features, and both were conspicuous for strength. The one really strong stock of the regular list was Atchison, which was taken freely upon rumors of unexpected success in the reorganization scheme. The close was heavy at close to first prices for most of the list.

Ilst.

Railroad bonds were again moderately active, and the business done reached \$1,946,000, out of which St. Louis, Arkansas and Texas seconds figured for \$218,000, and the Chesapeake and Uhio 5's for \$143,000.

THE annual meeting of the stockholders of

the Pittsburg Traction Company will be held on the 18th inst. THE chances for speculators gobbling the St. Peter's Church property are very slim-and growing slimmer.

THE trusteess of the Pittsburg, Wheeling

and Kentucky Railroad first mortgage loan ask proposals at Pitisburg, until November 23, for the sale to the sinking fund of \$4,000 bonds of the issue dated October 6, 1877. IT was stated yesterday on pretty good au thority that the Hutchinson property, in the Twenty-second ward, had been sold for \$100,000, on speculation. This confirms a rumor of which mention was made in The DISPATCH

several days ago. JAMES W. DRAPE & Co. say; "The \$400,000 transaction referred to in THE DISPATCH some time ago passed through our office, and while we are not at liberty at present to furnish any details, we can say that over \$25,000 has been paid on account of the negotiation."

THE annual meeting of the stockholders of the Fidelity Title and Trust Company will be held at its office on Thursday next at 1 o'clock P. M., for the purpose of receiving the annual sport, the election of 15 directors to serve for the ensuing year, and the transaction of such other business as may properly come before the meeting. A LIMA (O.) telegram says: The Geyser Oil

Company sold to the Union Oil Company, of Buffalo, one-half interest in 60,000 acres of oil land and 20 producing wells in this field, for \$150,000. The Union Oil Company will, it is understood, put up a large refinery, isy their own pipes, erect storage tanks and conduct business on an extensive scale.

A MORTGAGE of \$45,000,000 on the St. Louis Iron Mountain and Southern road has been filed at Little Rock: it is a supplementary indenture to the general mortgage of \$12,005,000.

denturs to the general mortgage of \$32,088,000 filed in 1881. This road is the property of the Missouri Pacific, and this increase of \$12,964,000 probably explains the recent runors current of an issue of Missouri Pacific bends.

London-Pig tin-Speculation has been heavy and purchases for consumption full. Prices advanced over £1, but reacted under realizations. Straits, £96 l0s for spot; futures (3 months), £97 5s. Copper-Increased buying for both consumption and export drove prices up £2, but there has since been a reaction due to realizations, Chili bars quoted £43 l0s@43 l5s for spot; £43 l5s@45 for future delivery; best selected English, £49£49 5s. Lead-Prices have advanced nearly £1, and business has been more active. Spanish quoted at £13@13 28 6t. Spelter-The market strong at £1 advance and fairly active; ordinary Silesian quoted at £22 l5s. Tin plate-Makers have booked quite large orders, chiefly for Bessemers, and the market remains strong, with prices still showing an advancing tendency. sion in prices.

HE GOT COWS CHEAPLY.

Details of a Business Transaction Aired in

Alderman Doughty's Office. August Goldstrohme, of Elizabeth township, is charged on a serious offense before Alderman Doughty. James K. Conrad, for S. R. Rush, of East Liberty stock yards, made an information in which it is alleged that Goldstrohme obtained a number of cat-

tle by false pretenses. In March, 1888, Goldstrohme went to the East Liberty stock yards, and made a bargain with Rush for the purchase of nine cows. The price was arranged at \$363. Mr. Rush allowed Goldstrohme to take the cattle away without payment. He repre-sented himself as having considerable real estate in Elizabeth. Since the time of purchase up to the present the prosecutor has made several attempts to collect his money, but apparently without success. The real estate in which Mr. Rush cast his anchor has proved to be quicksand. Hence the criminal proceedings.

A SOCIETY SUED.

An Idyl of an Overcont Brought to a Con-

clusion in a 'Squire's Office. About a month ago, the Elsis Loring Lodge, a society of Germans, who meet at Leidertafal Hall, Bloomfield. In the middle of the festivities a fight took place. The police raided the place, and made several arrests, among others John Gabriel, He brought suit against the management of the society yesterday, before Alderman Doughty, to recover an overcout valued at

At the hearing Gabriel swore that he left his overcoat in the ante-room, paying 25 cents extra, so that it would be taken care of, and when the police raided the place he forgot to take his coat. When he went back the next day, the coat was gone, and the mangement tried to foist another coat.

Patrick Reddy, a 14-year-old boy of Wabash avenue, Southside, was brought to the Homeopathic Hospital yesterday afternoon suffering from heveral severe wounds about the body and legs, having been kicked and trampled by a horse. His condition is not regarded as serious, as no bones were
